

Laser Performance UK National and Open Laser Championships, Mount Batten Centre, Plymouth, 21–28 July 2018

Supported by Tideway Investment Partners LLP and Phoenix Marine

Day two report by Sam Whaley

Light winds and sunny skies greeted the three fleets on Monday and despite hopes for a sea breeze nothing materialised. Therefore, at 3.30pm racing was cancelled for the day. Using Laser Performance SUPs, a relay race was organized instead with the winners showing an impressive display of balance and teamwork. Great fun all around.
